Acknowledgments: We are grateful to the personnel of the City's Marine Biology Laboratory for their assistance in the collection and processing of all samples and for discussions of the results. The completion of this report would not have been possible without their continued efforts and contributions. We would also like to acknowledge the City's Microbiology and Wastewater Chemistry laboratories for providing the bacteriological and chemistry data analyzed herein. Reviews of the various chapters were provided by A. Davenport, R. Duggan, R. Gartman, A. Groce, N. Haring, D. Ituarte, D. O'Donohue, D. Olson, L. Othman, T. Stebbins, W. Storms, and R. Velarde.
